In order to more accurately reflect the actual wastewater usage of these customers, the Utilities Services Board may, by the adoption of a resolution, change the months used to set the summer rates and the length of time the summer rates are in effect. All other users shall be charged on the basis of one hundred percent of metered water consumption subject to user proof of lower wastewater use.

residential shall pay a monthly charge of \$2.70. All other customers shall be charged based upon the amount of runoff generated by the customer. The amount of runoff subject to the stormwater utility rate shall be determined by a calculation based upon the following formula, minus any credits, as approved by the Utilities Service Board:

$$\frac{\begin{array}{c} \text{Runoff generated by} \\ \text{non-Single Family} \\ \text{Residential Customer} \\ \hline \text{Runoff generated by the} \\ \text{average Single Family} \\ \text{Residential Customer} \end{array}}{\text{Multiplied times \$2.70}}$$

(b) These rates and charges shall be billed monthly, and all provisions of the Indiana Code, the Bloomington Municipal Code and the City Utilities Department Rules, Regulations and Standards of Service which apply to the payment and collection of rates and charges for wastewater services shall apply equally to the rates and charges for stormwater utilities services.

At the request of the utility or user, a meter which measures either the water use of the customer or the discharge into the sanitary sewer system shall be installed at the user's expense. Where a meter has been installed or the customer's water use records are available at no charge from the water supplier, the charge for service shall be computed on the basis of water usage plus monthly service charge, just as it is with a metered user, subject to the annual minimum charge.

Synopsis

This ordinance amends the rates and charges included in Title 10 of the Bloomington Municipal Code, entitled “Wastewater”, to reflect inflation and increased costs of supplying wastewater collection and treatment services to customers of the wastewater utility, and for financing required capital improvements to the system. It also changes the language in the Code regarding delinquent account penalties to make it consistent with State laws and regulations.
